	Ultramarine	#64CAFF → #05AAFF	x1.3	20 000
	Bright	#05AAFF → #3499FE	x1.4	50 000
	Brilliant	#3499FE → #3D67FF	x1.6	200 000
	Royal	#3D67FF → #022E87	x2	500 000

# Azuro Wave status block

Style guide for the Azuro Wave status icon. You cannot change colors, proportions, mirror, or rotate it.  
You can only change the size.

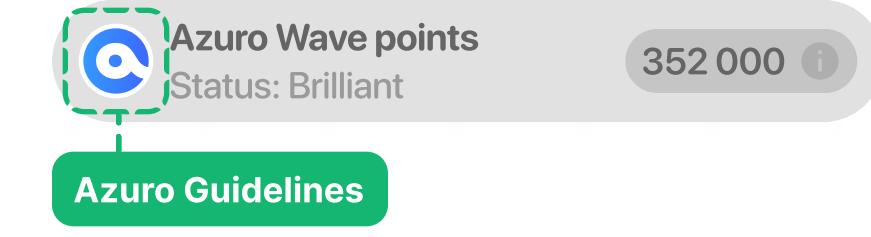

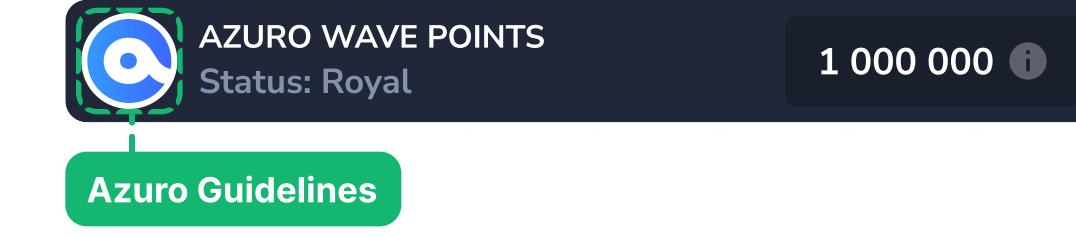

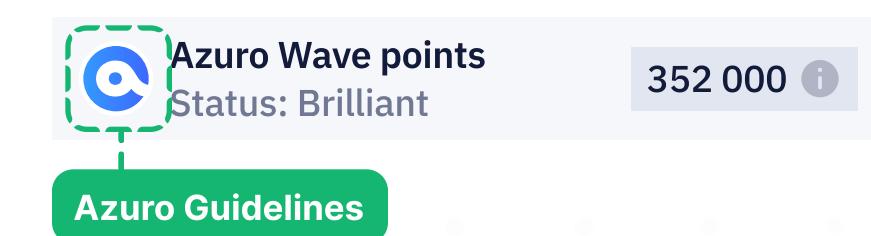

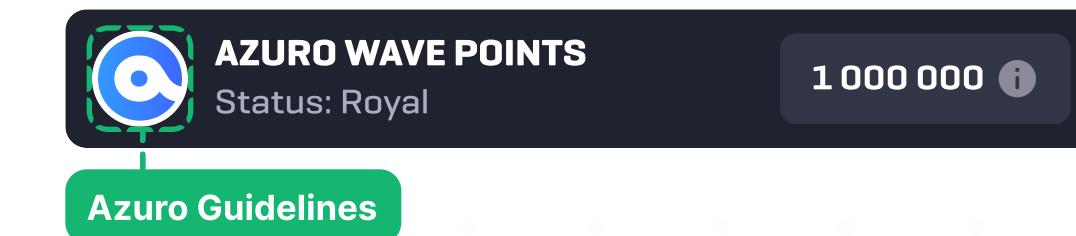

## What can be branded

You must strictly adhere to the Azuro guidelines. Changing the icon color, background, or proportions is not allowed. However, you may adjust the icon size.

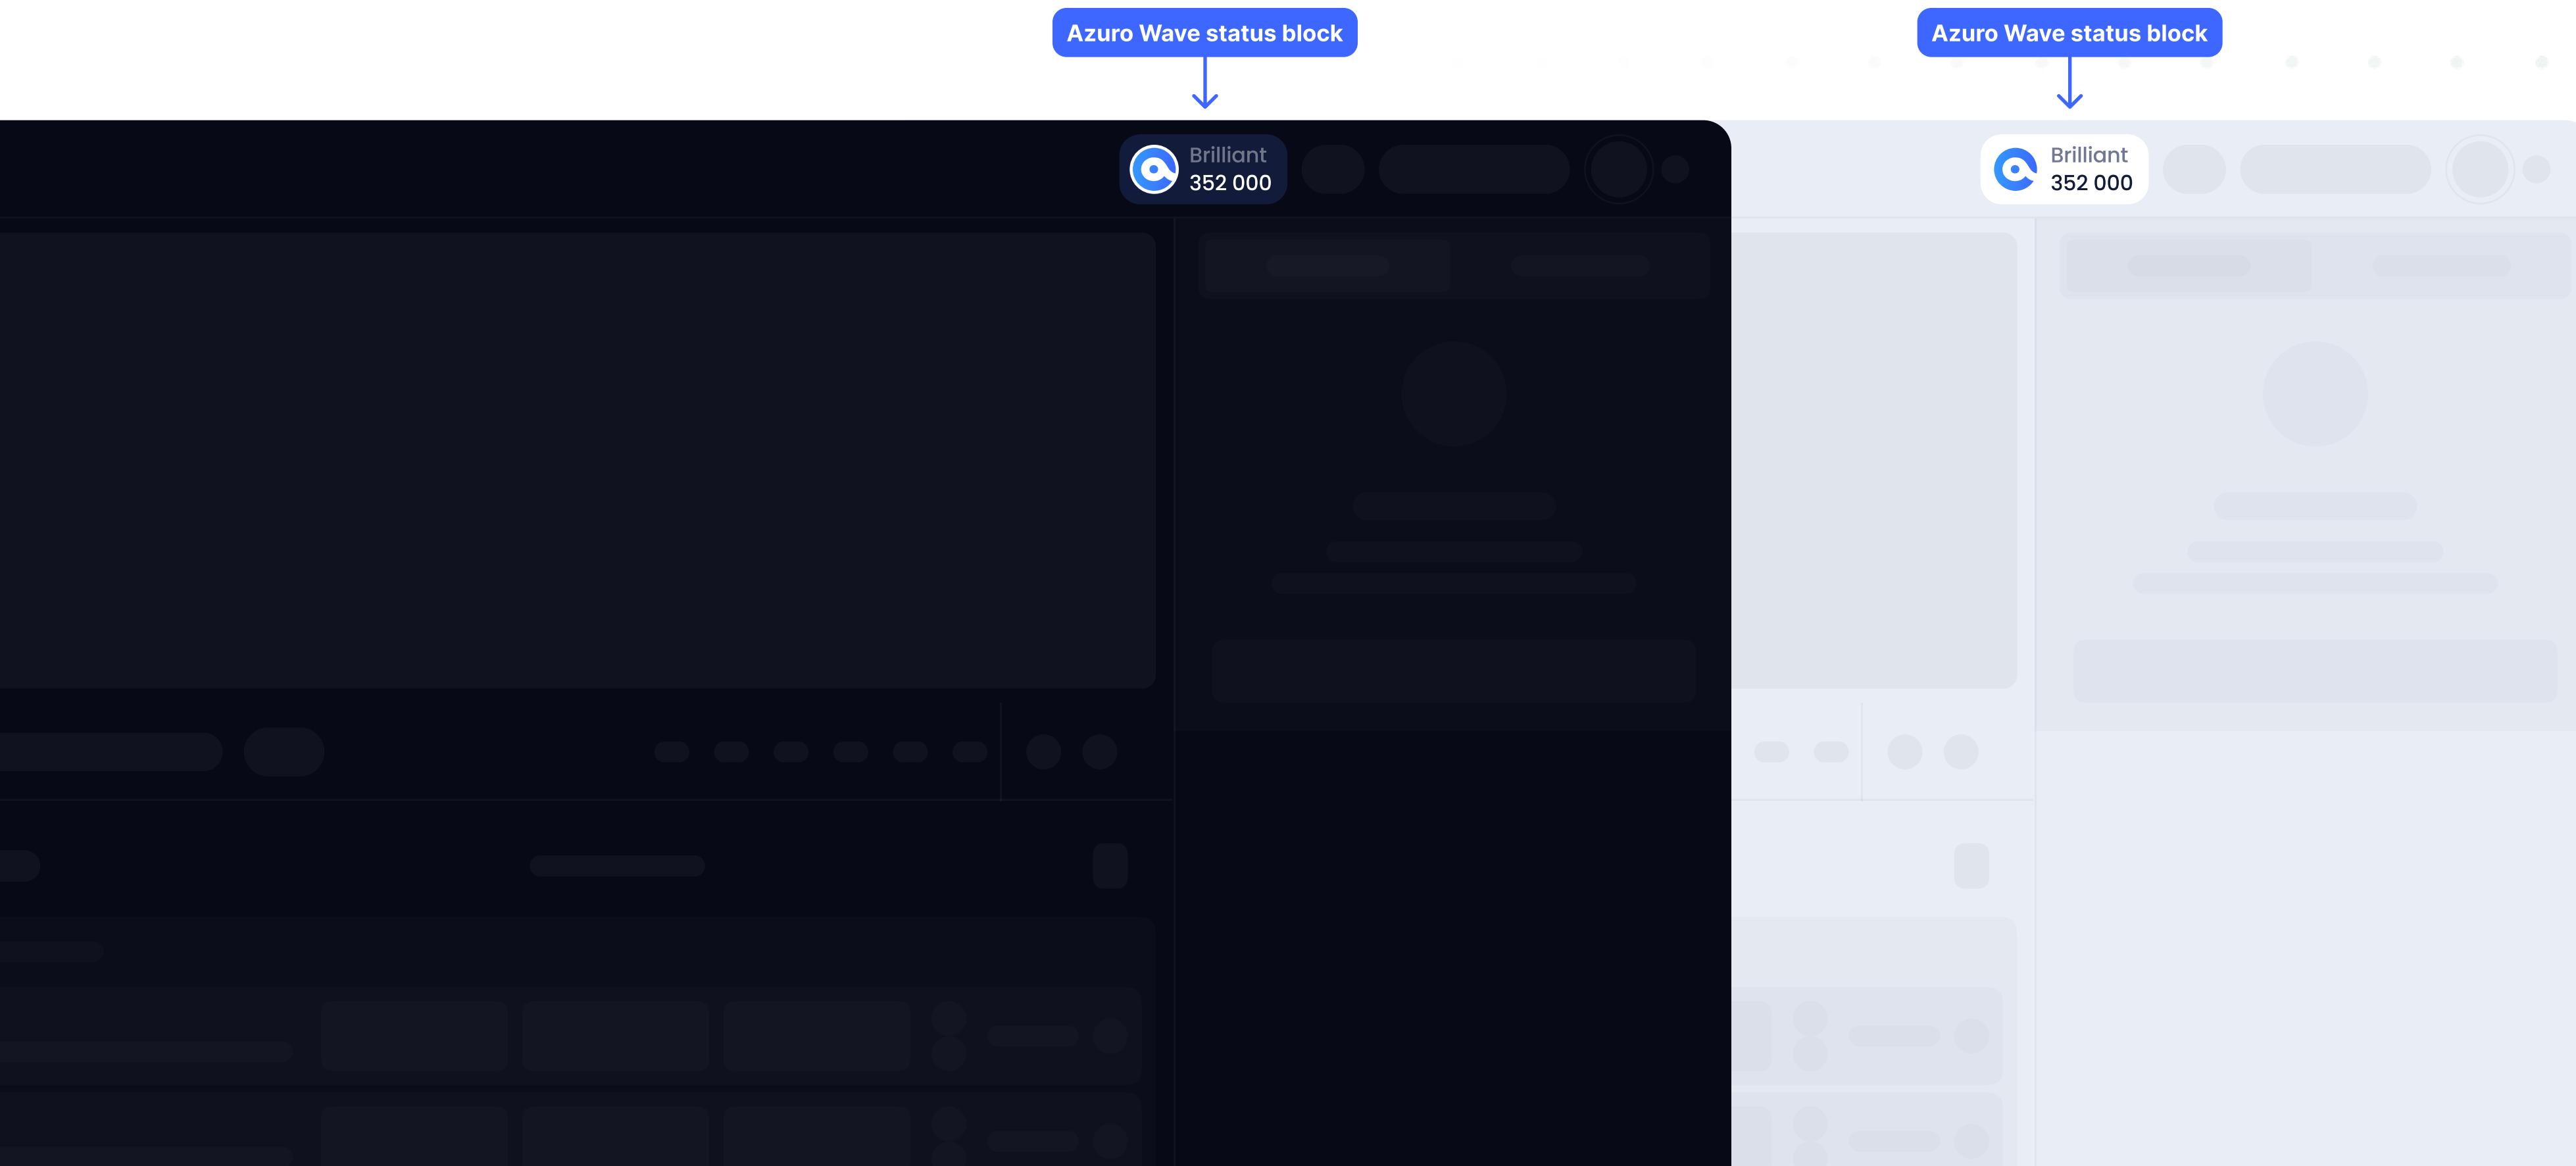

## Examples of third-party clients

Each platform can change the block to its own branded colors, fonts and size, except for the Azuro Wave icon, which is provided by the Azuro platform

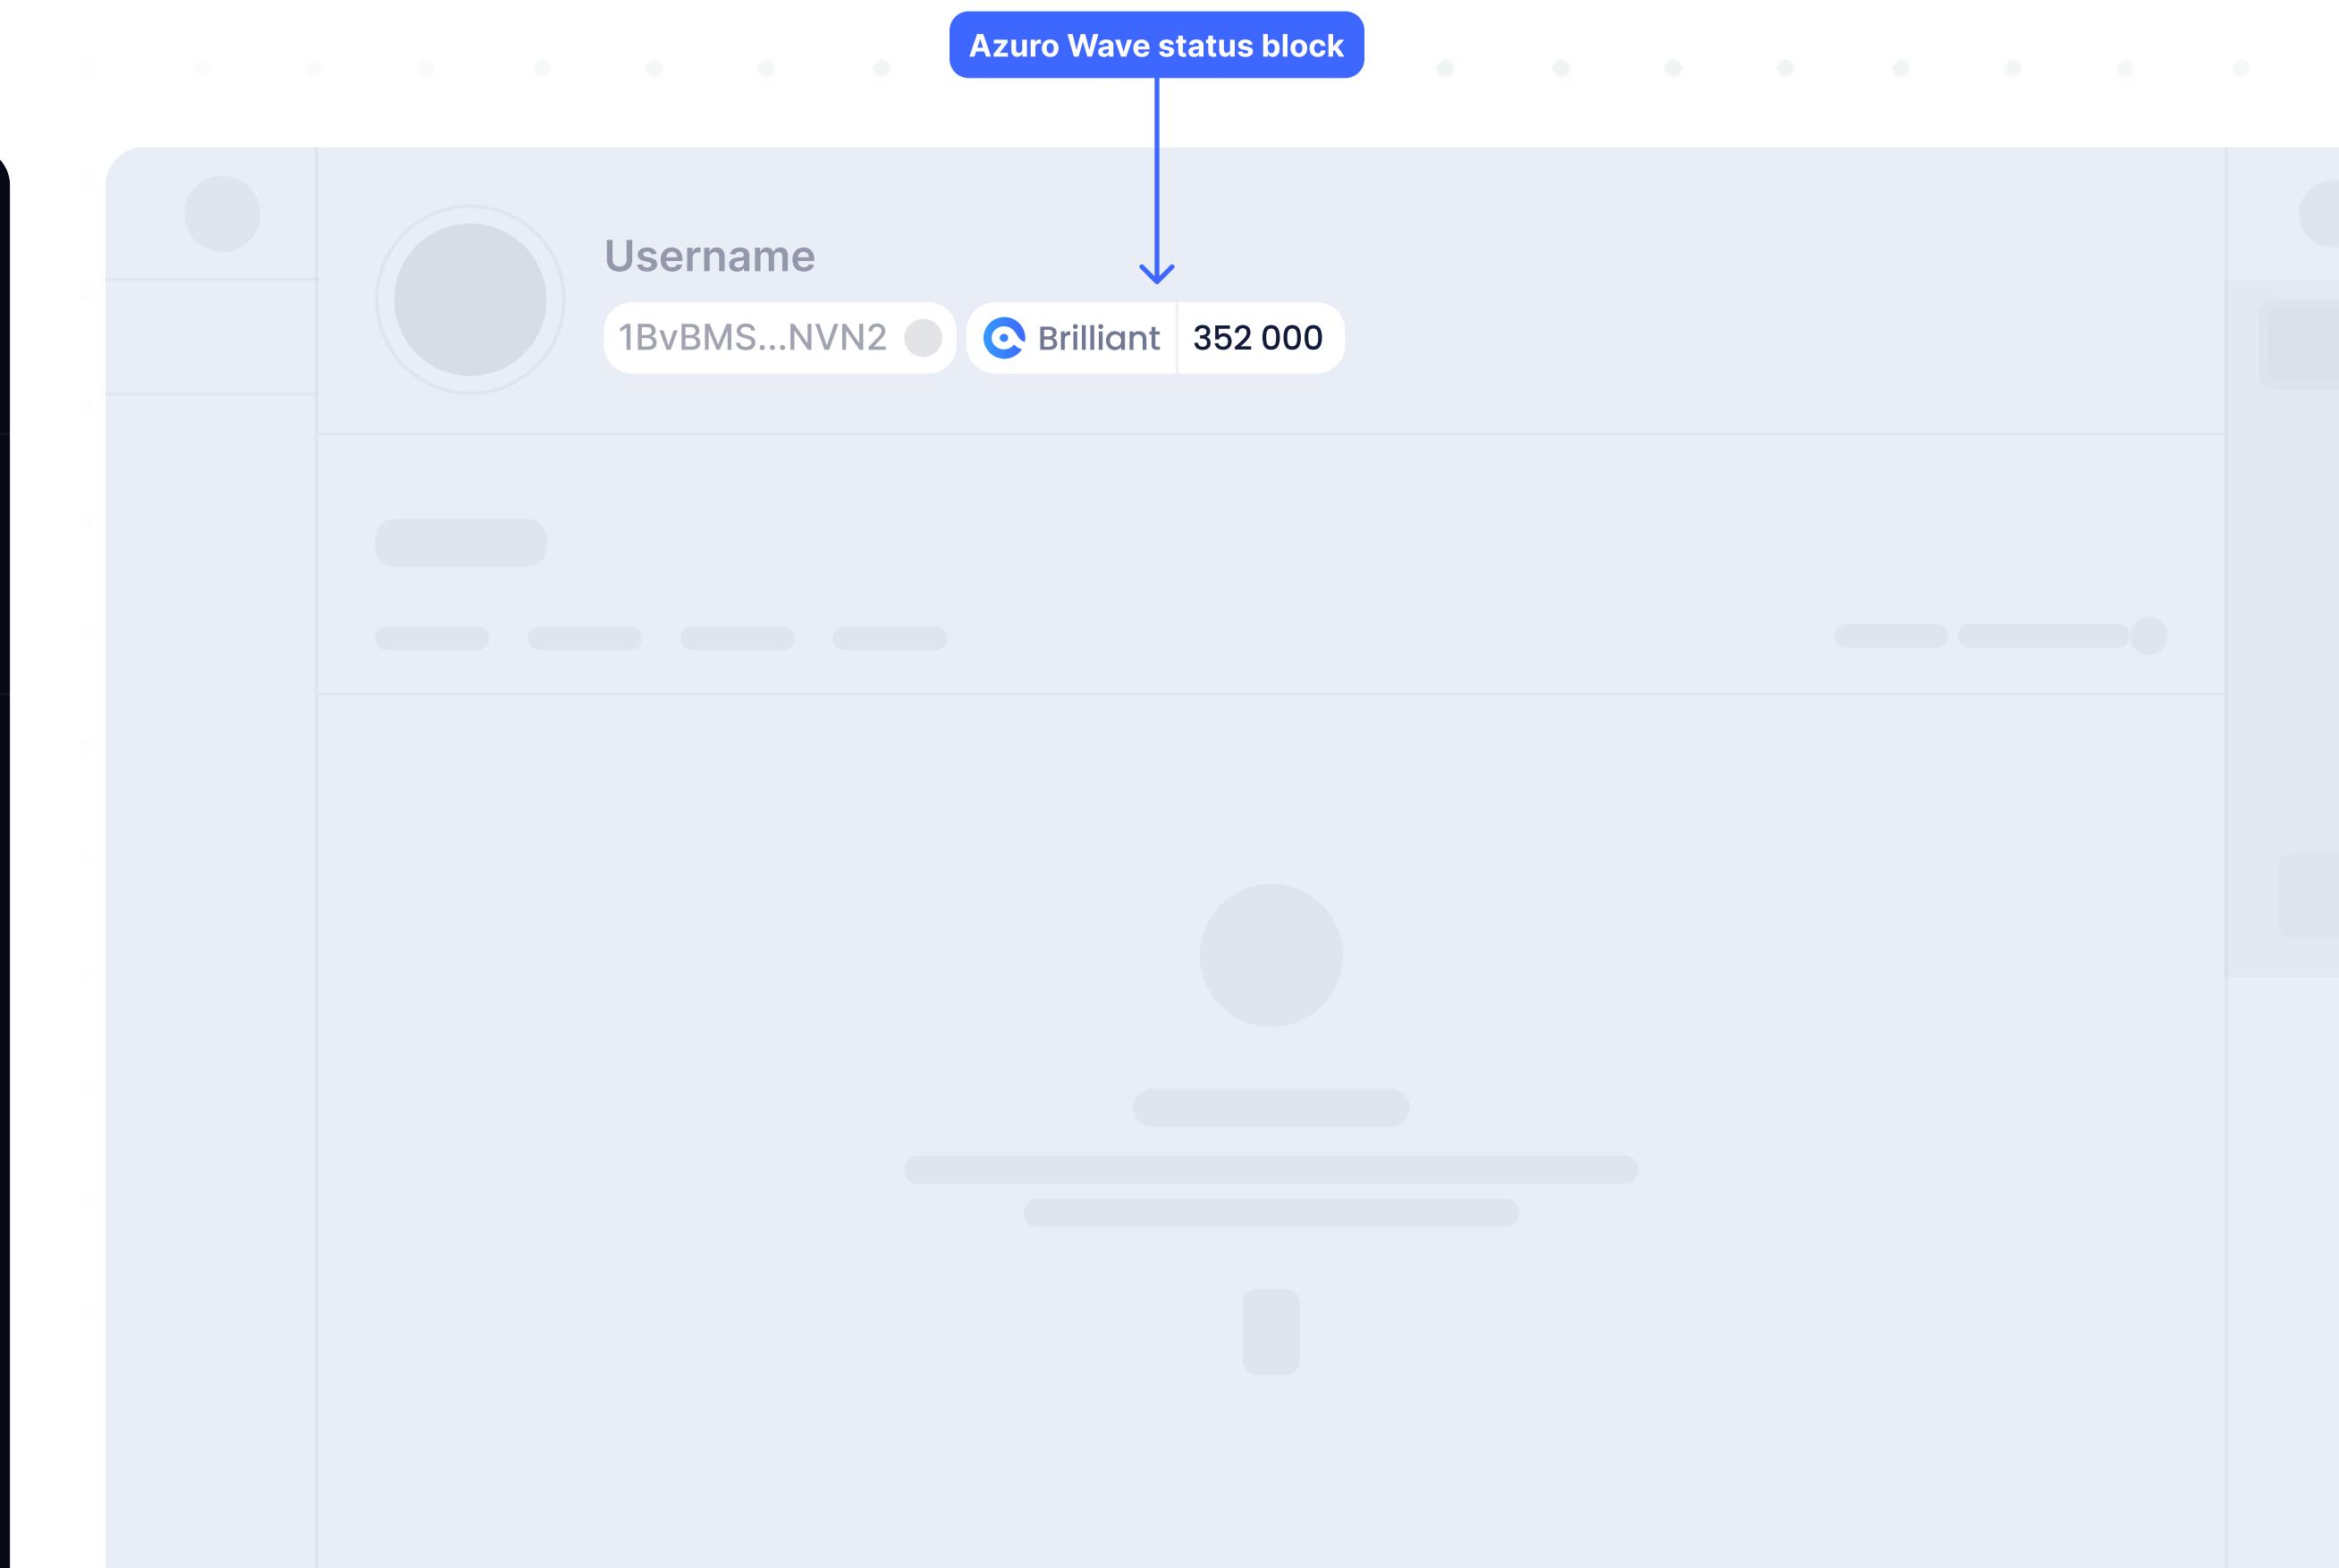

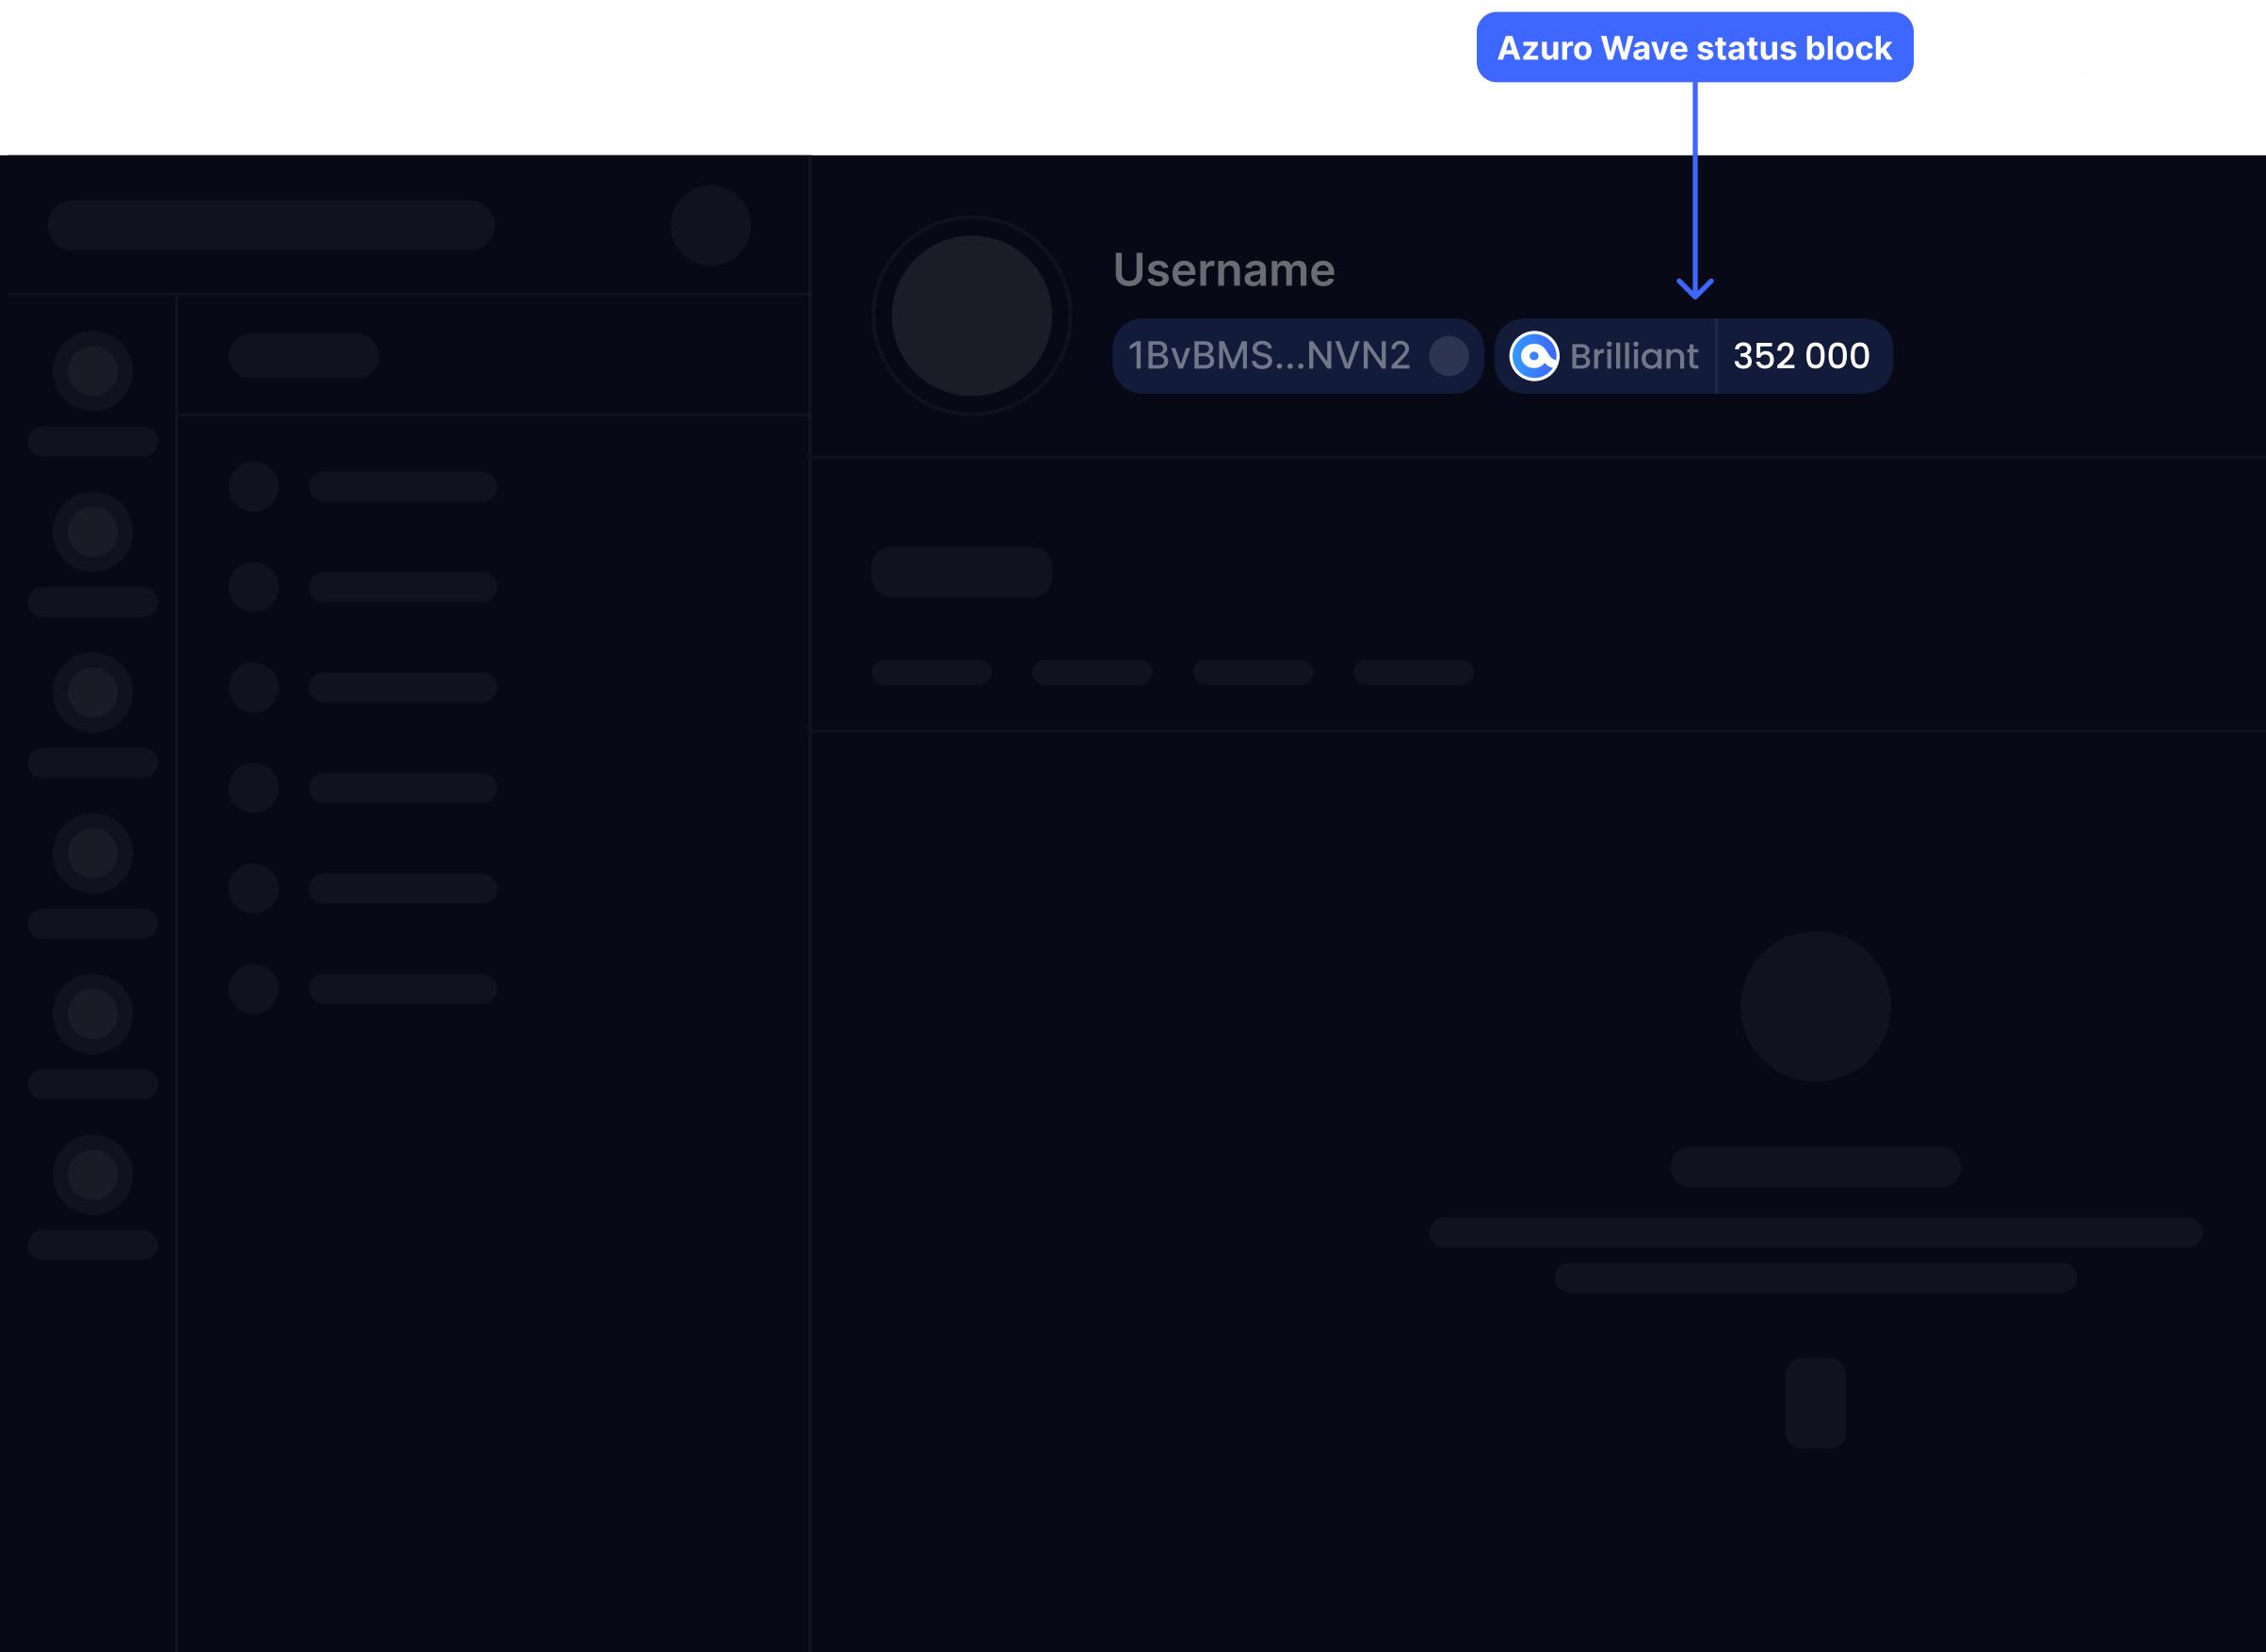

# Header placement

The option to place the Azuro Wave block in the header of the website.

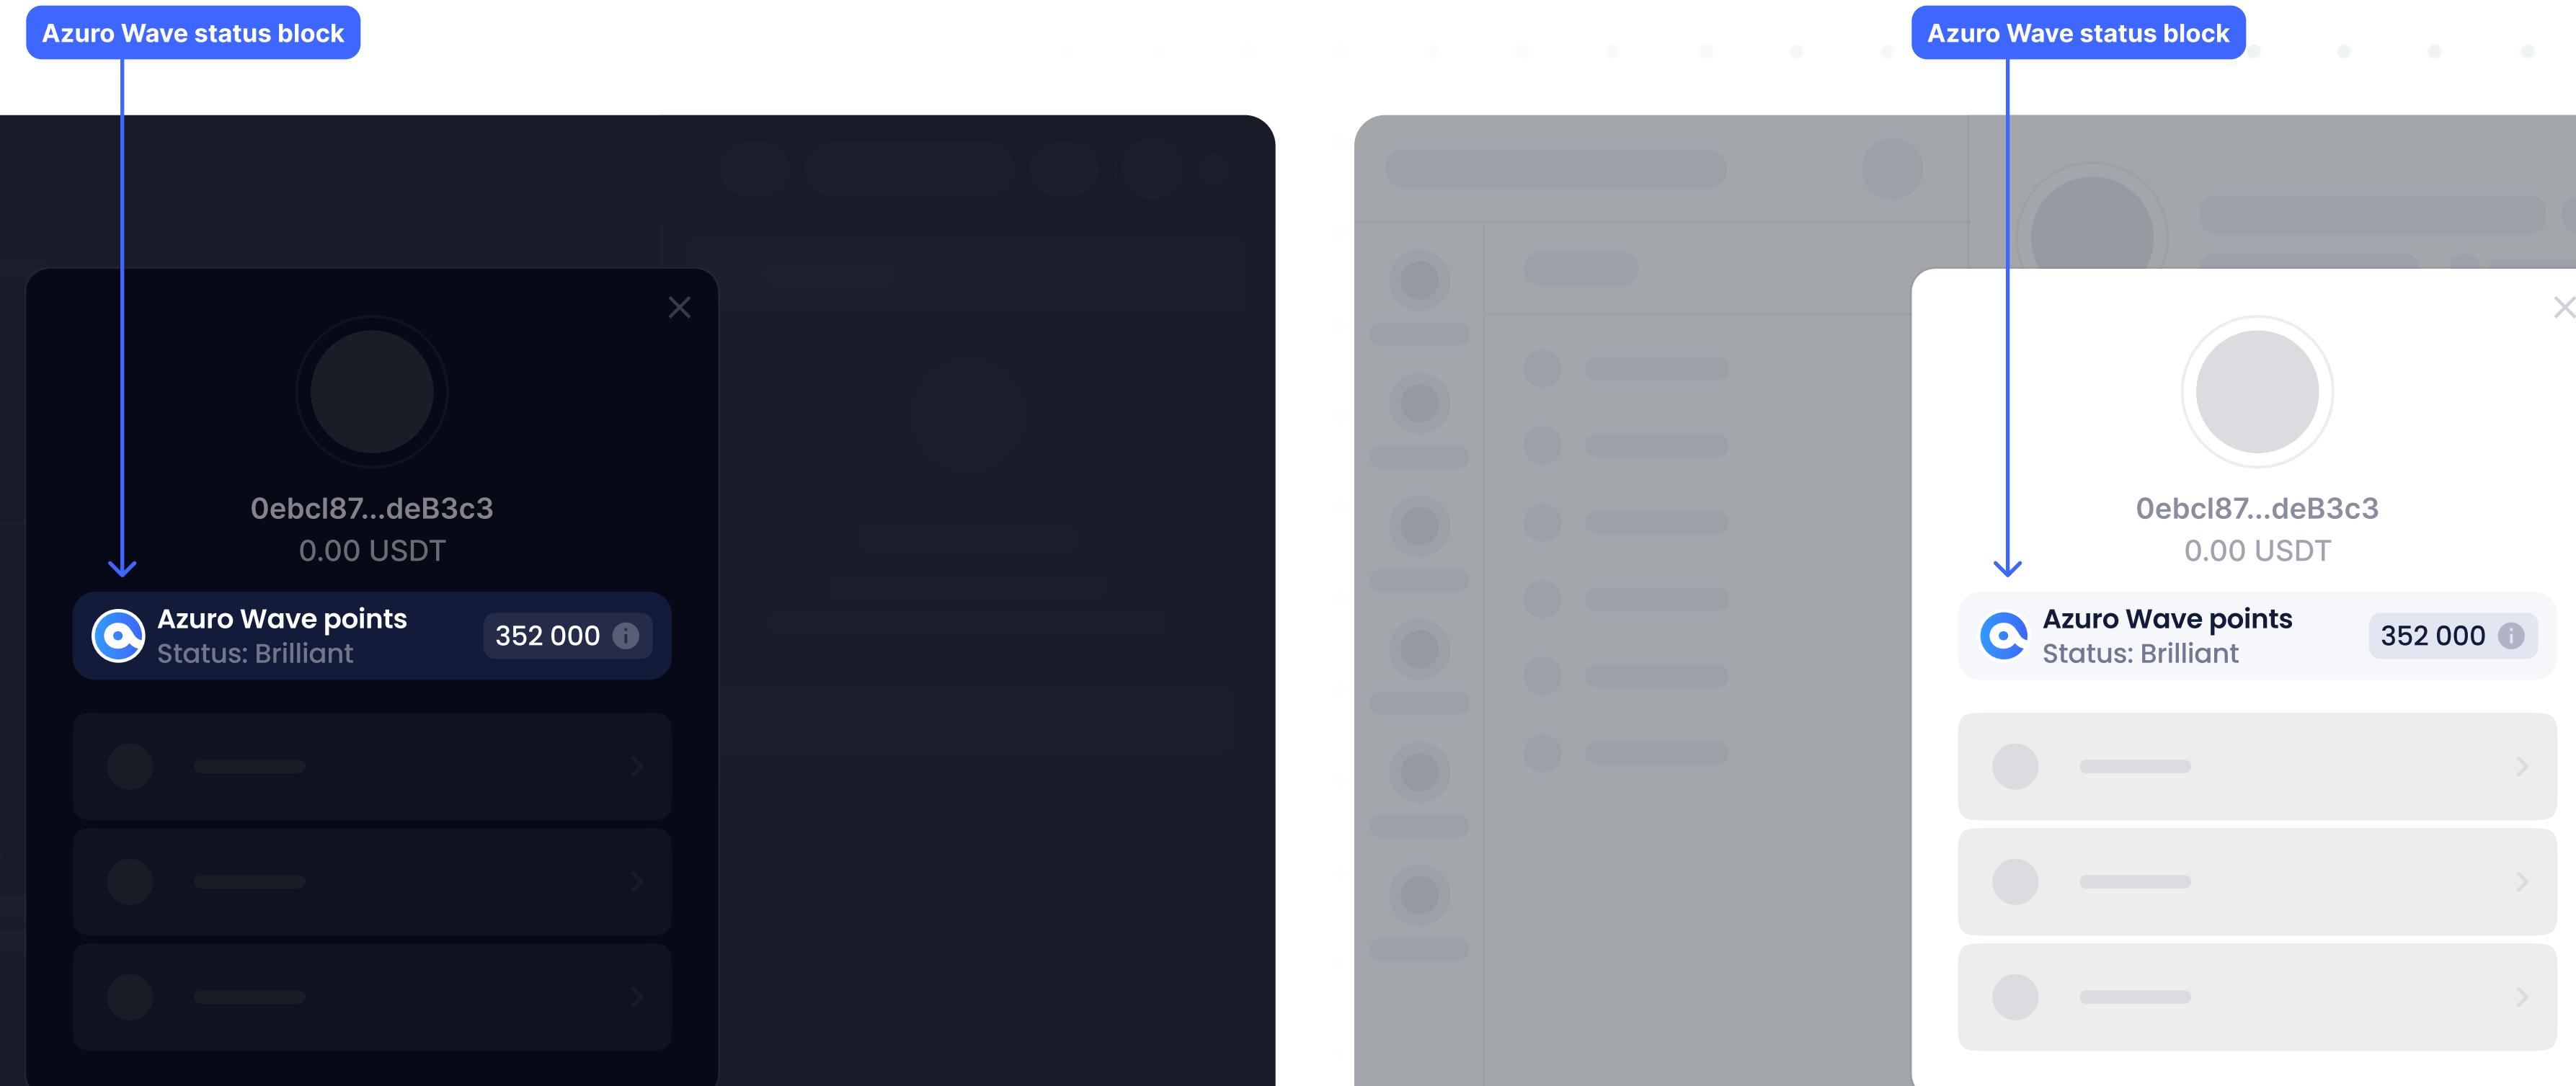

# Profile placement

Alternatively, you can place the Azuro Wave status right after the user's wallet address in the personal profile, depending on your website structure.

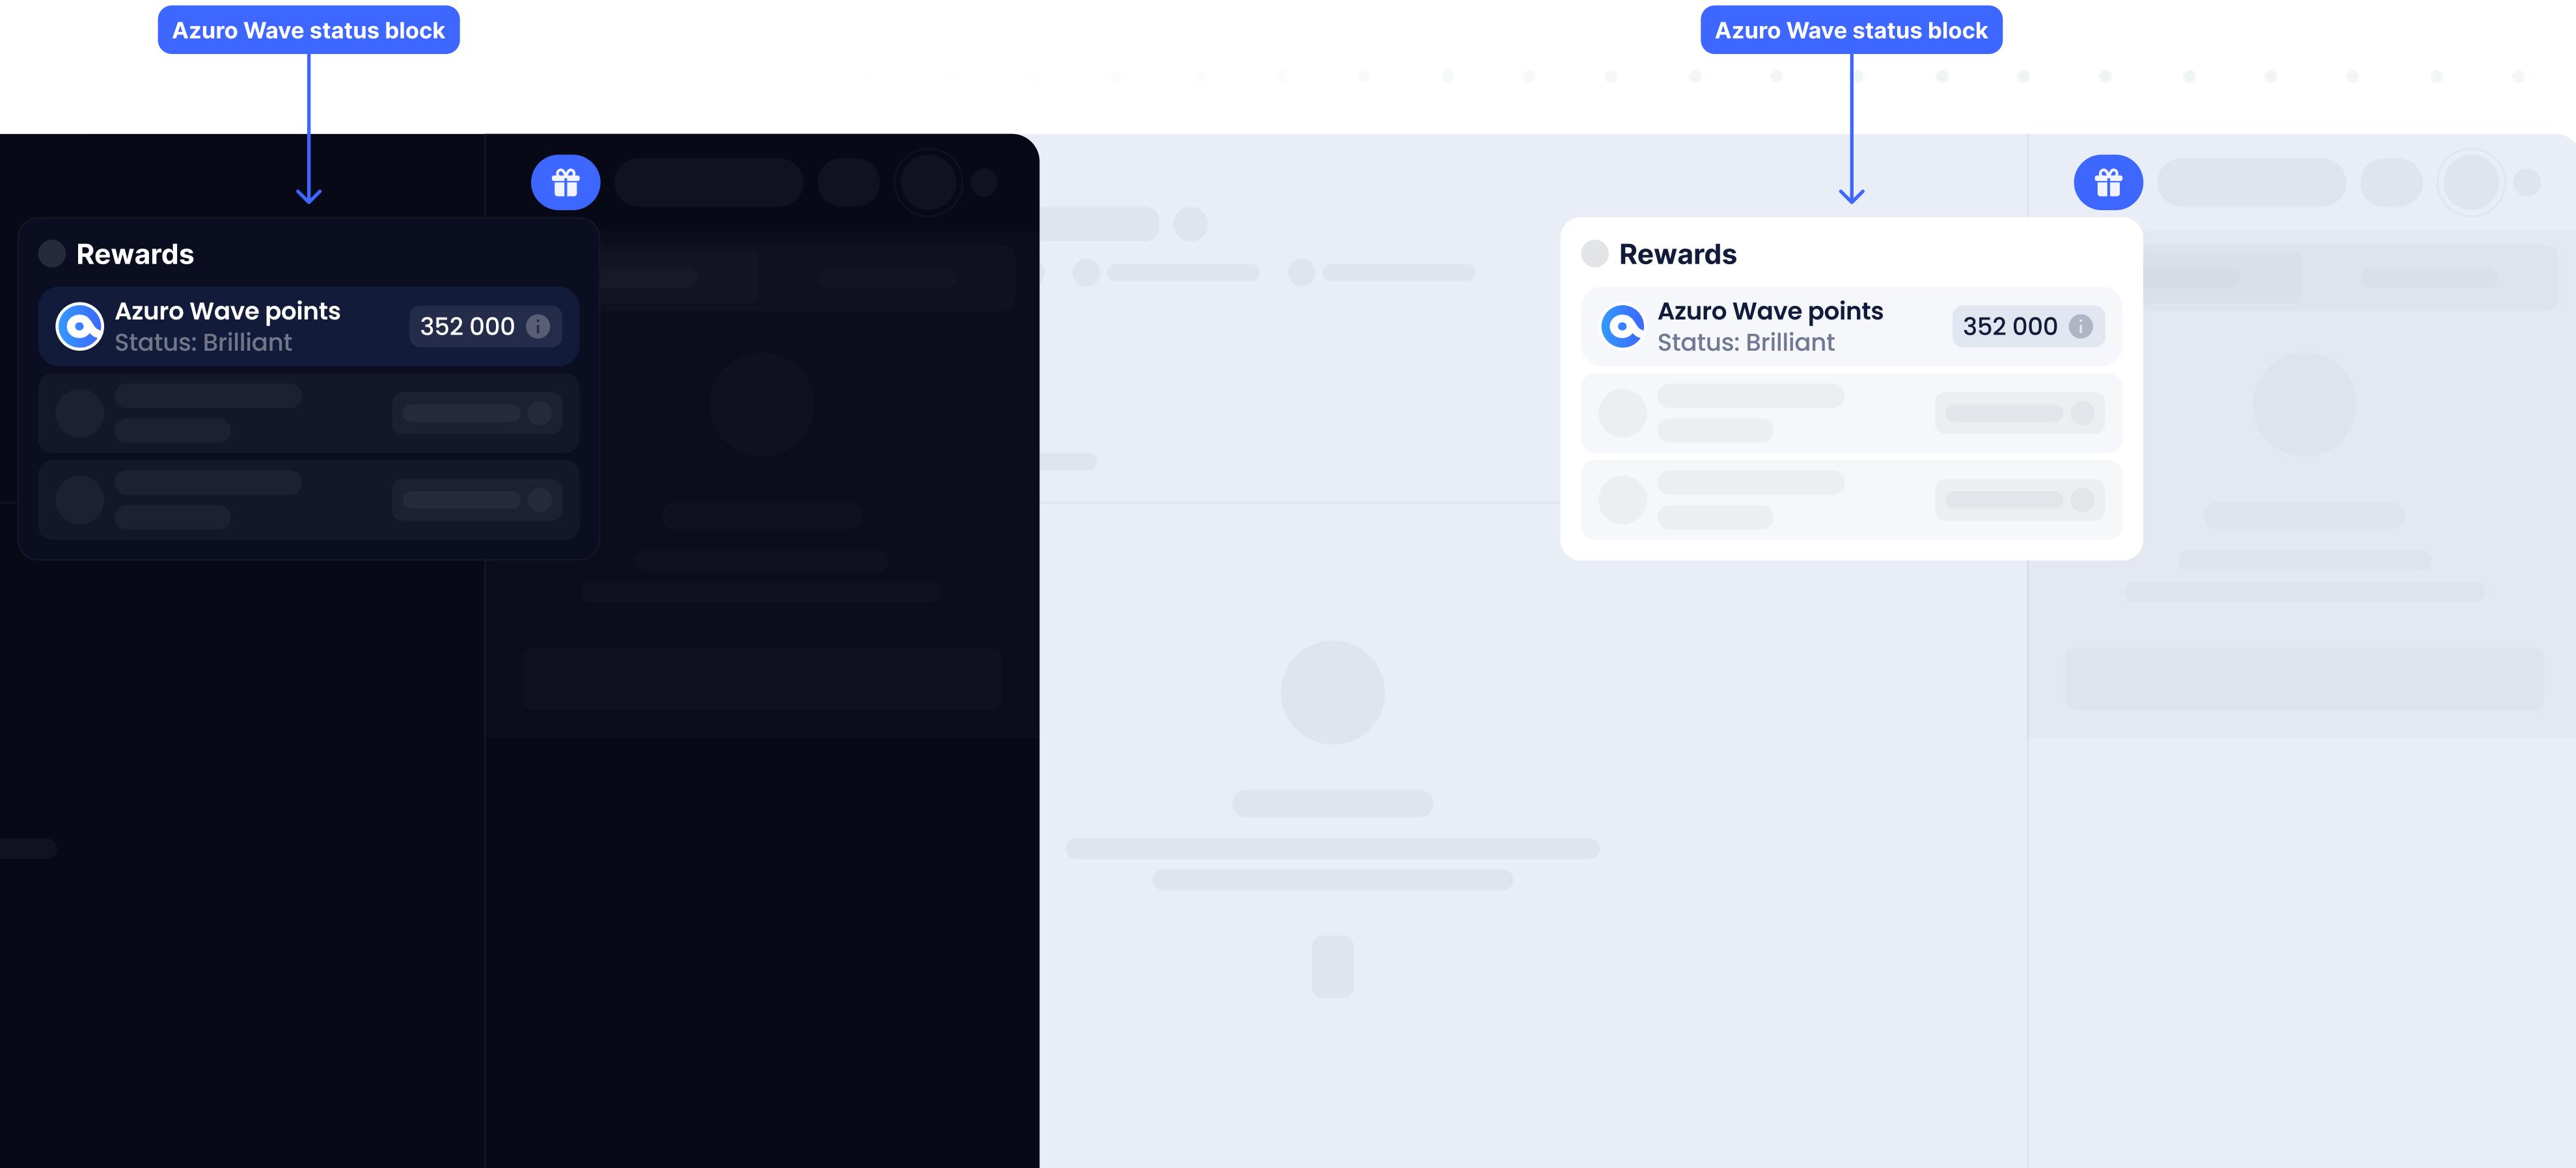

# Modal placement

In case your website structure doesn't allow for previous applications you can place the Azuro Wave status in the modal that appear by clicking on the wallet address.

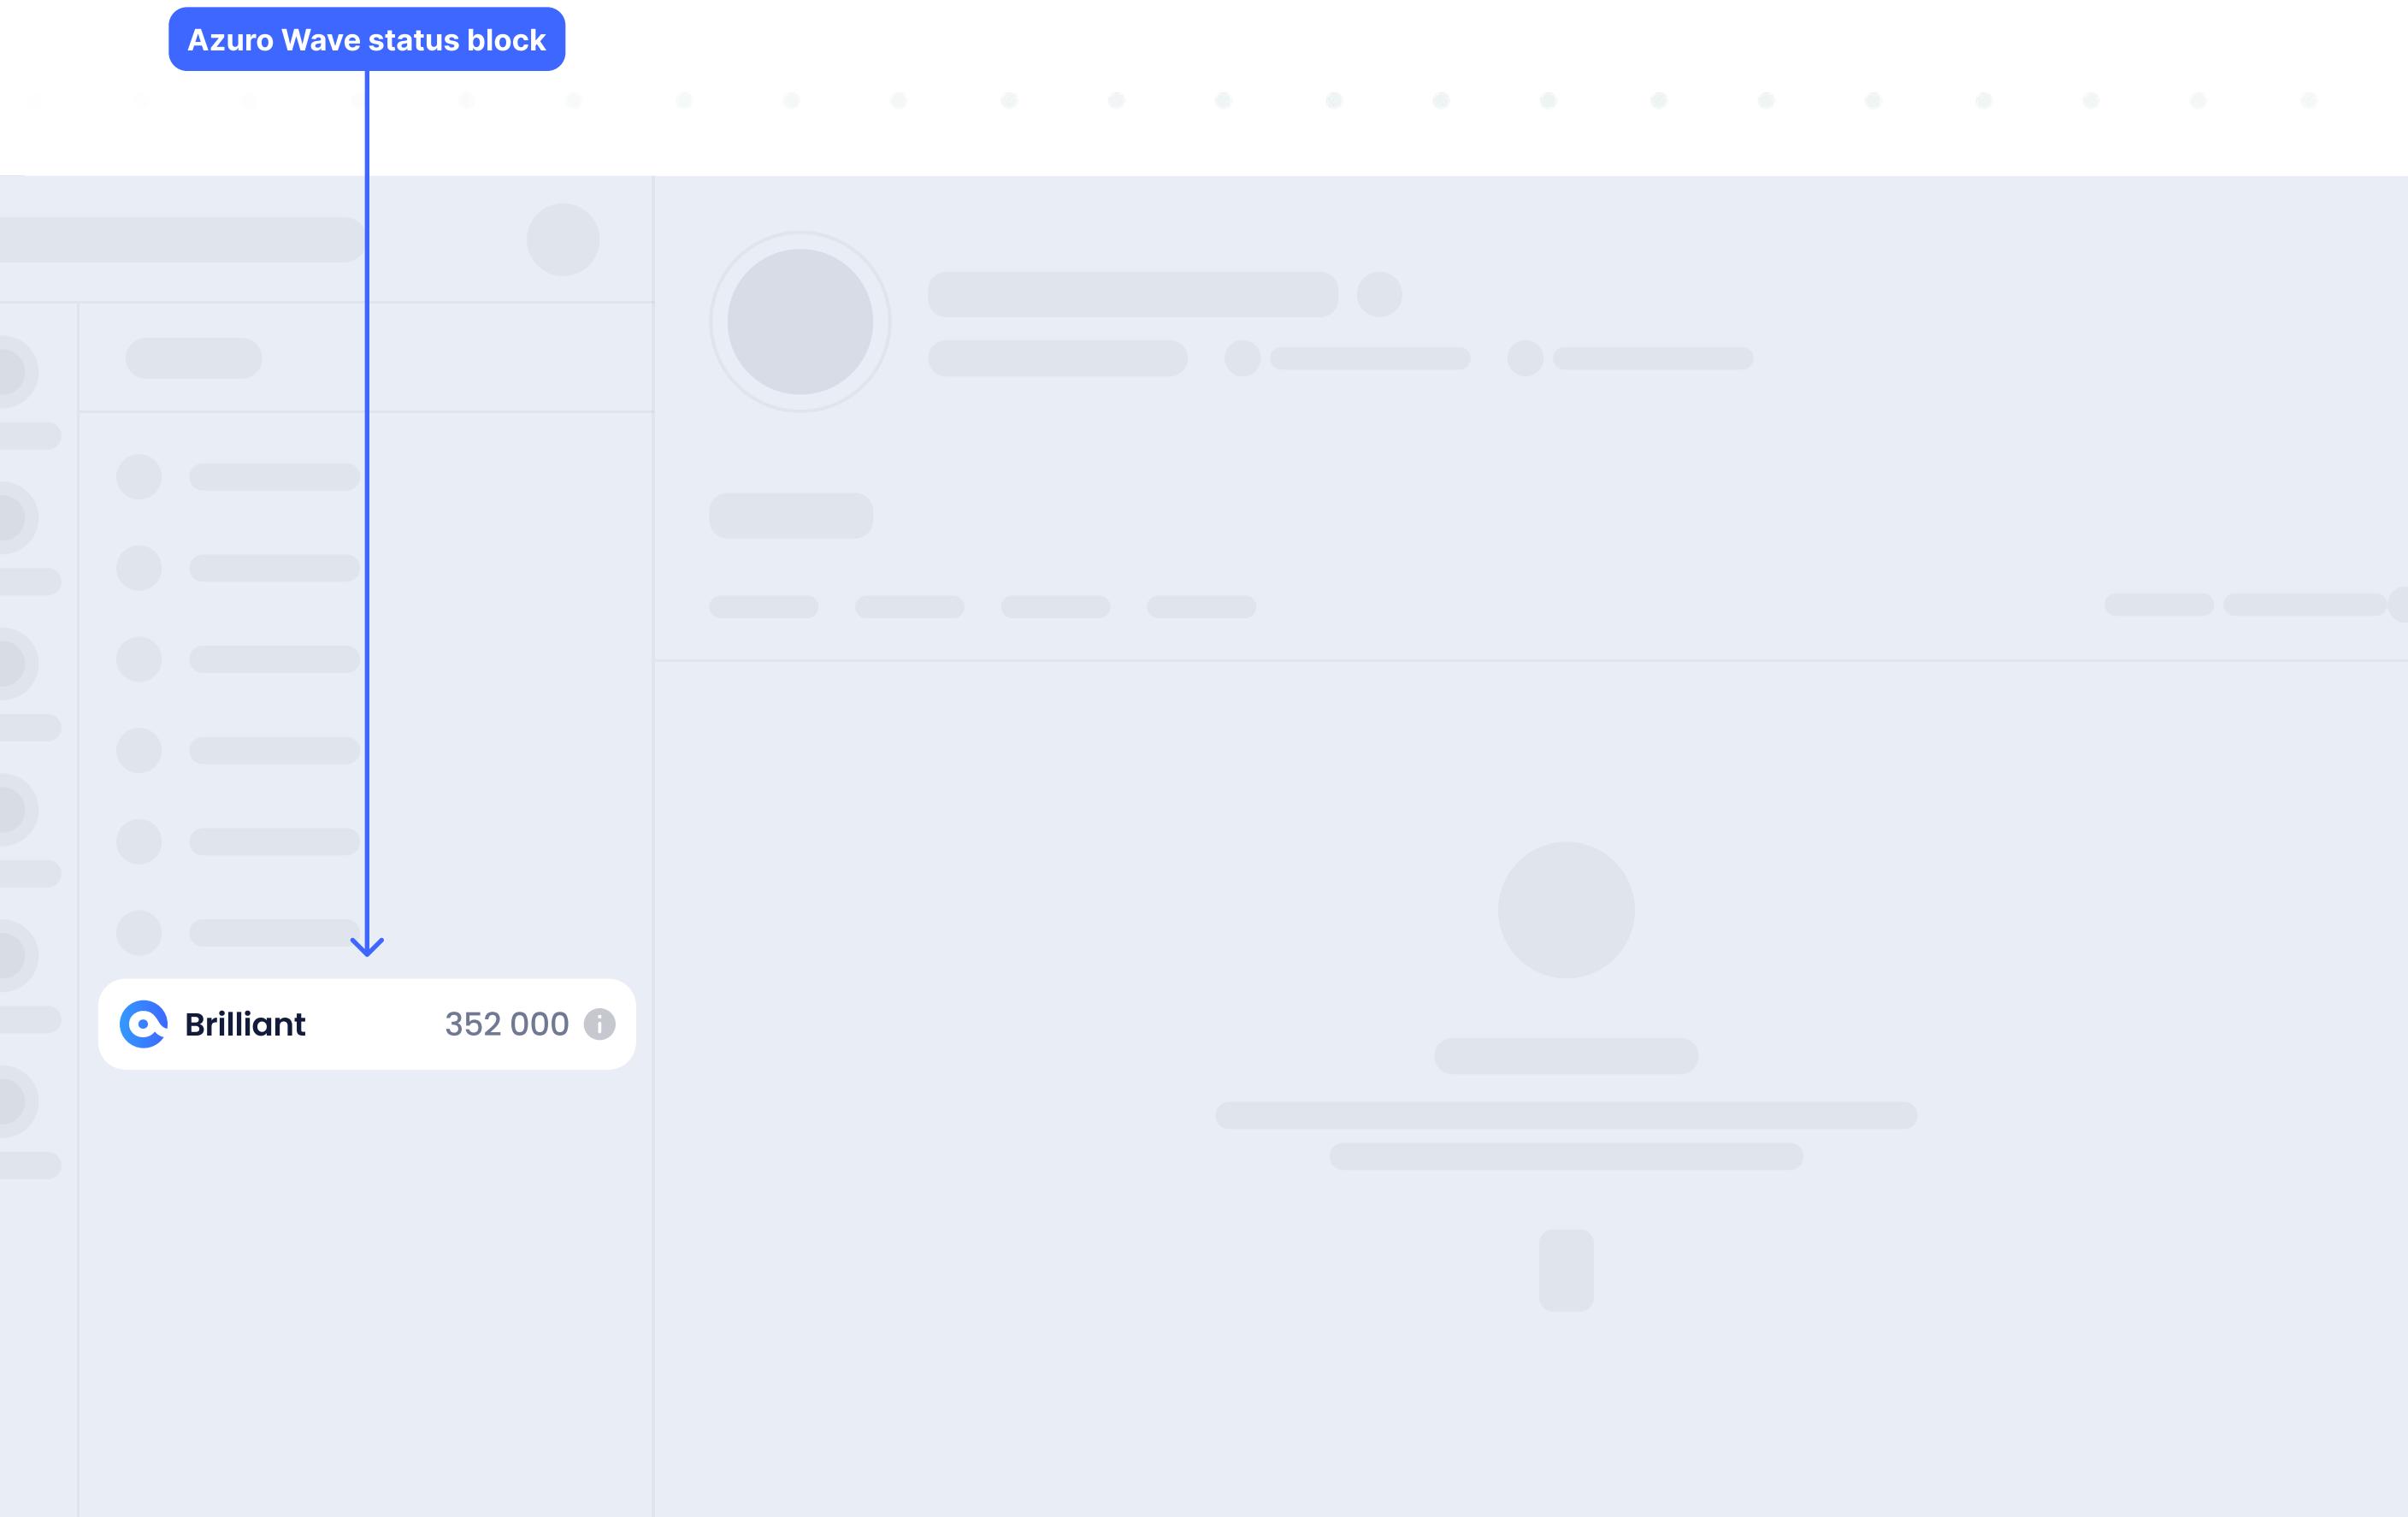

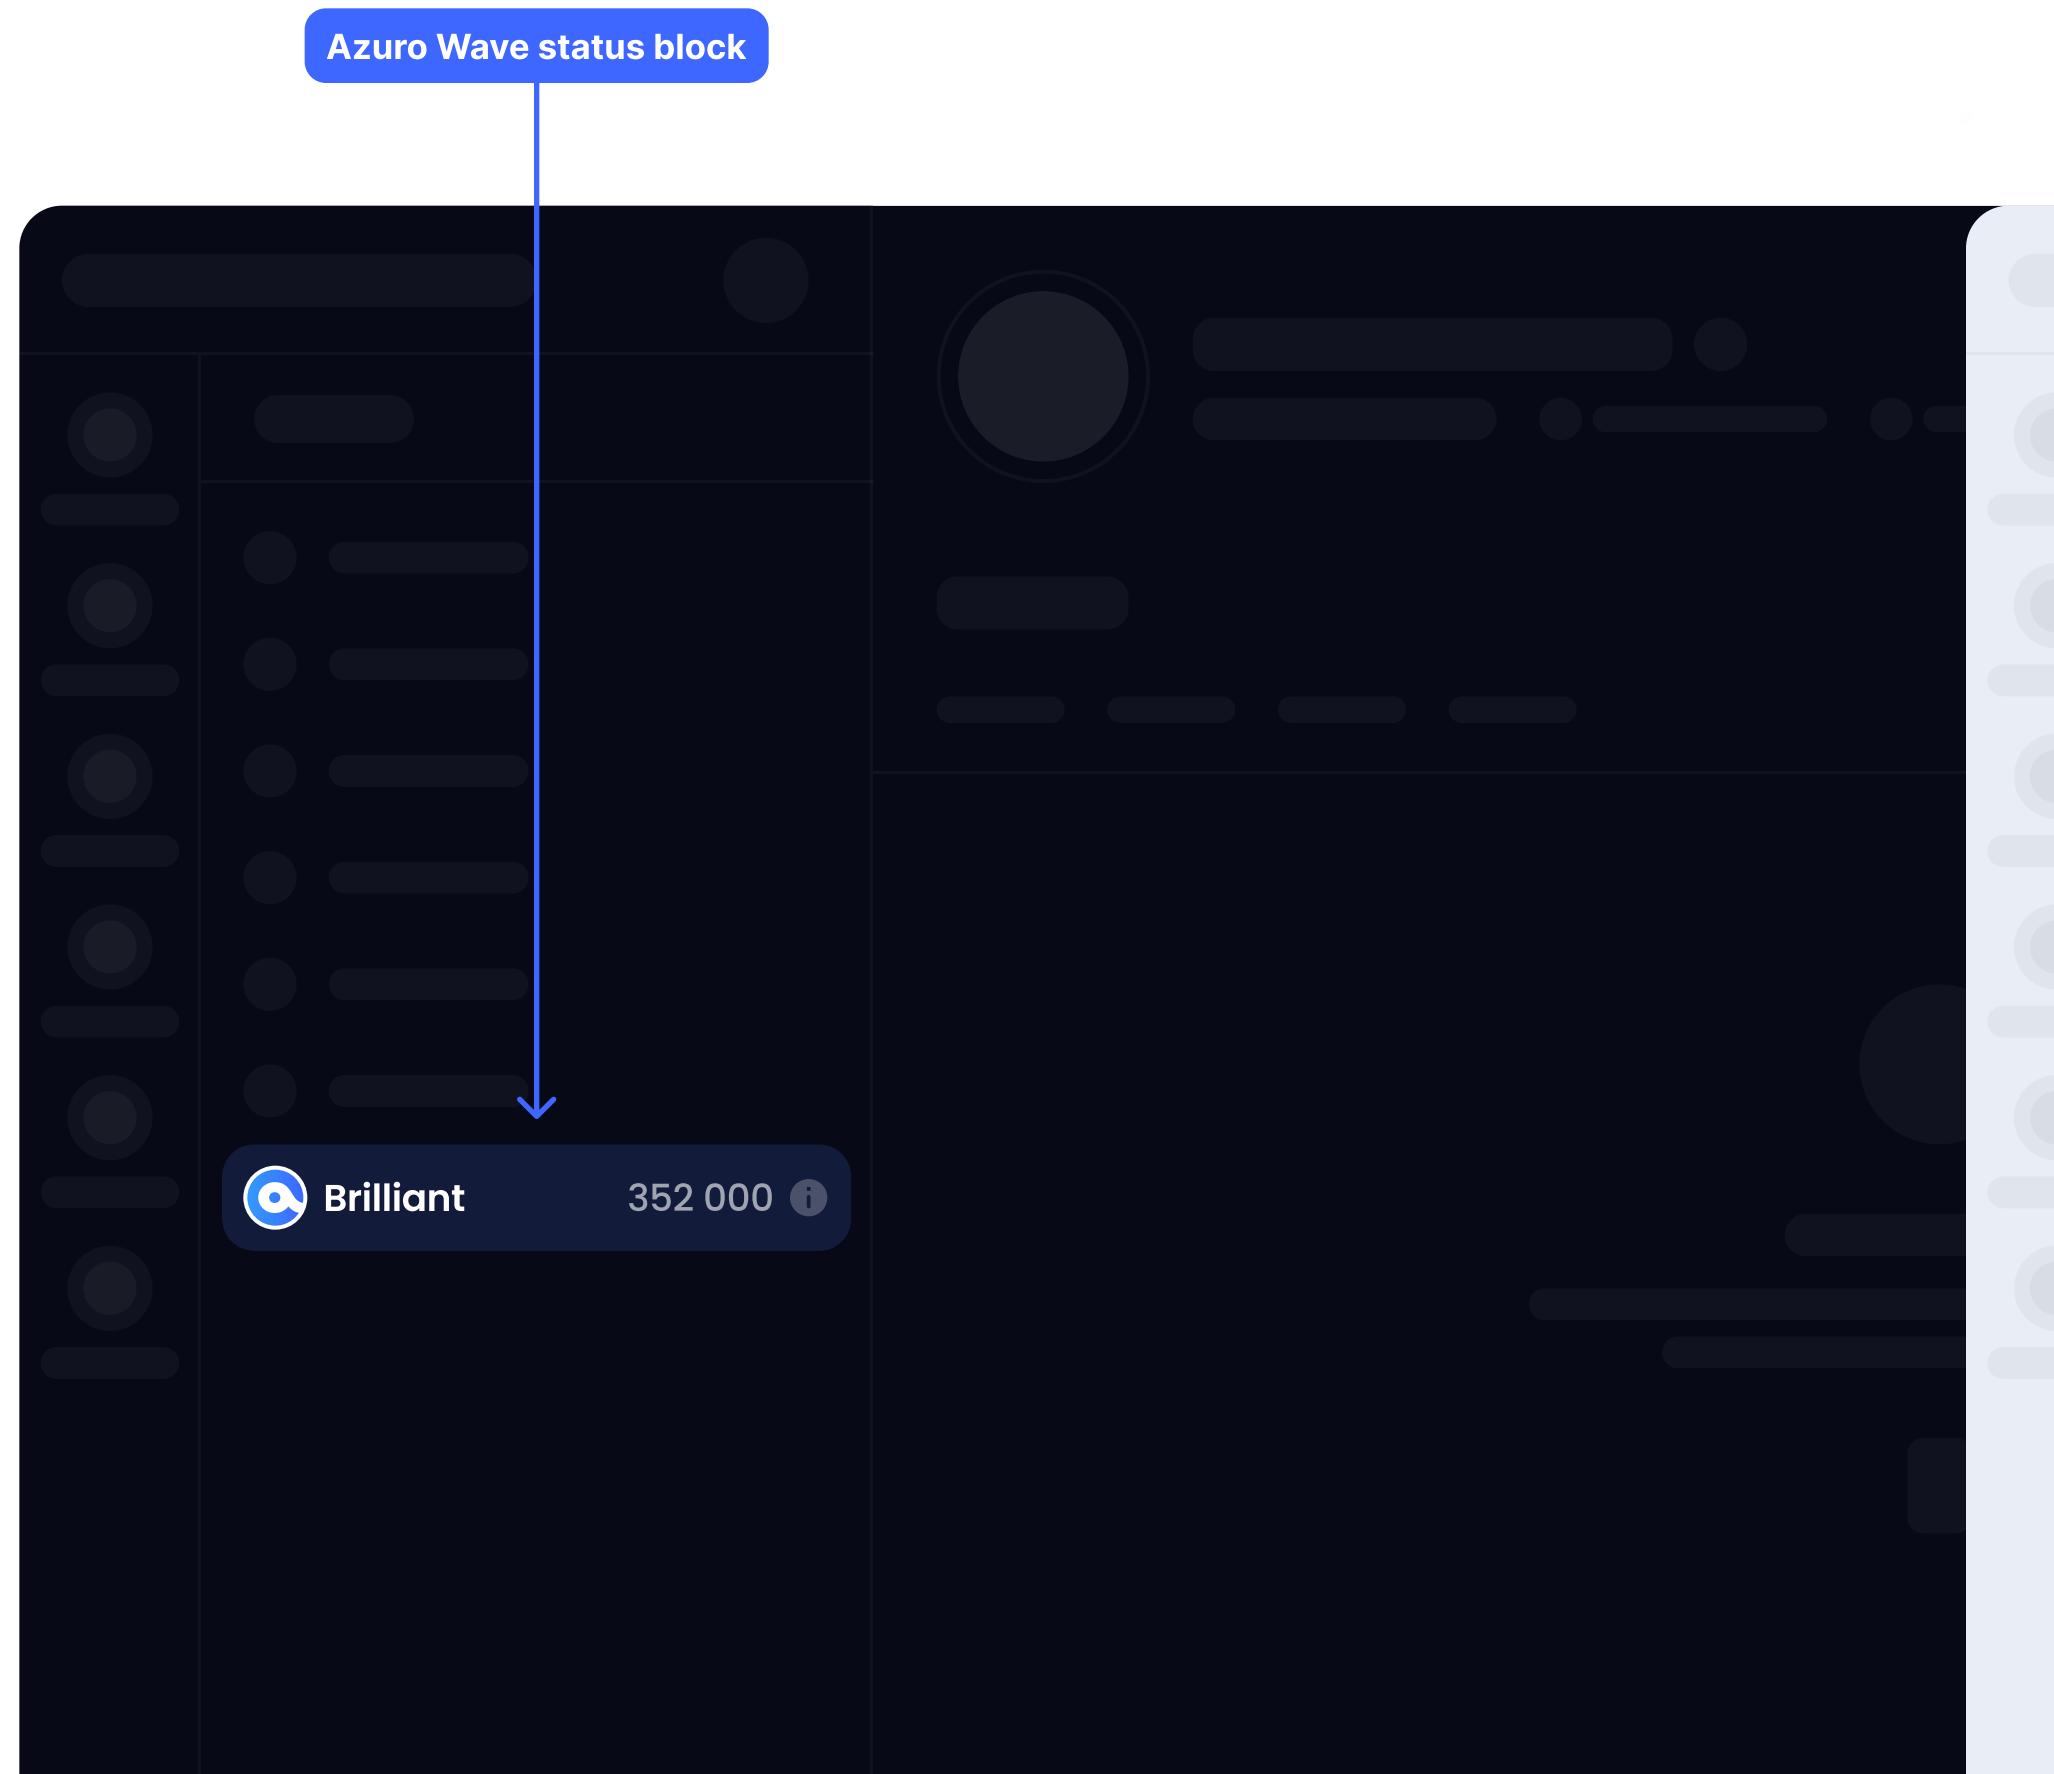

# Rewards dropdown placement

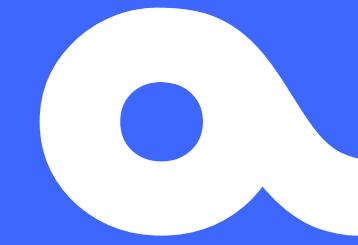

The most frequent placement in the dropdown rewards.

# Sidebar placement

Less frequent use of placement, but optionally it can look like this.
